ONLINE TRAINING PROGRAM

Aqua Lung offers online training courses through our secure B2B or Technician Only are at www.aqualung.com

Successful completion of a course results in a printable wall certificate acknowledging the store or technician and provides access to repair manuals, associated schematics, bulletins and resource materials.

To learn more about online training, logon to the B2B or Tech Only site and click the Online Training found under *Technical Support*.

BENEFITS:

- Online courses serve as a qualification program and an up-to-date reference source
- Training can take place anytime 24/7 and anywhere the internet is available
- Each course contains multimedia, text, photos, illustrations and videos and can be paused and resumed as needed with knowledge retention measured by quizzes along the way
- After the course has been successfully completed, the student may return as often as they wish as long as they remain employed by an Aqua Lung dealer.
- Allows Aqua Lung to communicate directly with service department personnel
- Affordable, the \$25.00 to \$40.00 per course fee can be recovered by servicing just one regulator. (discounted multi-course packs available)

How to Use the Spare Parts Catalog & Price List

The Spare Parts Catalog & Price List are designed to be easy-to-use references for locating currently available part numbers and prices for most Aqua Lung products, including regulators, BCs, valves, instruments and rubber goods. It is not intended to be a substitute for the various Aqua Lung Repair Manuals. Because the schematic drawings and parts listed contain the most recent revisions to the products shown, this document should be referred to exclusively whenever ordering replacement parts.

Finding the part number and price

There are three simple steps for finding a part number and its price:

- Find the product in the Table of Contents of this catalog and turn to the appropriate page.
- Find the part in the exploded drawing and note the key number. Find the key number in the parts listing located below the exploded drawing. Next to the key number is the part number.
- Refer to the **Spare Parts & Specialty Tools Price List**, and locate the part number. Next to the part number is the dealer price and retail price.

Mandatory overhaul replacement parts

Some products have mandatory overhaul replacement parts, which should be replaced every time the product is serviced. Any part in **BOLD ITALICS** is considered a mandatory overhaul part, and should not be reused under any circumstances after the product has been disassembled. These parts can be ordered individually, or in complete kits which are available for each model regulator.

Parts no longer available (NLA)

Some older, discontinued products have parts that are no longer available. If a part was never or no longer available, the letters NLA will replace the part number in the parts list.

Parts no shown (N/S)

Part are available but not shown on the schematic.

Using the Part Number Index

If you know the part number for a specific item and want to find where it is used (or isn't used), you will want to use the Part Number Index . To use the index, you first need to locate the part number in the listing. Next to each part number are the page numbers on which the part can be found. If, for example, you want to know what products use the AP2034 medium pressure seat, you can refer to the Part Number Index, where you will find the pages to the products that use AP2034.

A Reminder

Parts may only be sold to Authorized Aqua Lung Pro-Line Dealers, and must be installed only by technicians who have received factory authorized training. Proper storage is important to ensure the quality of these parts. Be sure to store parts in a manner to prevent premature degradation of rubber and other soft materials, and to prevent damage to those parts which contain delicate sealing surfaces.

Calypso Series 2004-Present

NOTE: *In 2017, the yoke retainer (16) was changed to enable the use of a pre-filter (18) in addition to the conical filter.

NOTE: *In 2010, the crown orifice is machined into the body. If you have damage to a body, yoke retainer or the removeable crown orifice (11) on a pre-2010 model, you will need to replace the body (8) with the new revision along with the new yoke retainer (16). Please confirm which body style you have before ordering any replacement parts.

Titan LX Series 2001-2014 Discontinued
Legend Series 2002-2011 Discontinued

***NOTE:** The diaphragm retainer and purge cover for the pre-2009 Titan LX 2nd stage are no longer available. If the diaphragm retainer and/or purge cover become damaged or lost, you will need to replace both parts with the new Titan LX purge cover (p/n 128103) and diaphragm retainer (p/n 129195). "DO NOT" use the old diaphragm retainer with the new purge cover. The old/new purge cover retaining ring can be used with either purge cover.

Old Revision

***NOTE:** The purge cover (p/n 129172) and metal badge (p/n 129187) are no longer available. If either part needs to be replaced, you can substitute with Legend purge cover (p/n 129236).

Micra ADJ

1997-2007 *Discontinued*

NOTE 1:

The Lever Retaining Sleeve (Key #22) was revised in 1997. Be sure to correctly identify the part before reinstalling, and replace with new if found to be a Revision A part. (Refer to Technical Bulletin No. 10, dated August 15, 1997.)

NOTE 2:

The Adjustment Screw (Key #22) and Knob (Key #26) were revised and are now keyed for easier alignment. It will be necessary to order both parts when replacing one which is not the current revision.
